

K-LOVE radio station is a valuable asset to my community. We have a lot of secular radio stations that play vulgar trash and I want something that my self and my child can listen to that will not pollute our minds and spirits. WE need to keep our KLOVE signal in our community. Our community has a much lower crime rate, higher morals and a higher standard of living than some of the surrounding communities. I believe KLOVE helps contribute to this. We love to listen to music and we do not want to listen to the secular stations in our area or the other "christian" stations that play commercials. We love KLOVE and do not want to lose it and the clear signal that we get.
